**IEEP and the Metropolitan Water District of  
Southern California present**

**Water Supply Outlook for Southern California**

**INLAND EMPIRE, CA (September 9, 2008)** - The Inland Empire Economic Partnership and the Metropolitan Water District of Southern California are proud to present the Water Supply Outlook for Southern California to be held on Thursday, October 9, 2008 at the San Bernardino Hilton in San Bernardino, CA. Please join us for a community leaders briefing to discuss water issues affecting our local communities, Southern California and the state.

California's elected leaders and water stakeholders have worked side-by-side for many years to resolve statewide water issues involving water quality, supply, conservation and environmental concerns. These issues greatly impact the quality of life for today's Californians and future generations. This briefing will provide you a wonderful opportunity to hear about these important issues.

Please join Mr. Jeff Kightlinger, General Manager of The Metropolitan Water District of Southern California and Bill Carney, President & CEO, Inland Empire Economic Partnership for this informative briefing.

There is no charge to attend this event and a complimentary lunch is included. The deadline to register is Monday, October 6, 2008. For more information or to register, please contact Jami Decker at [jdecker@mwdh20.com](mailto:jdecker@mwdh20.com) or by calling (213) 217-7347.

**About IEEP**

*The Inland Empire Economic Partnership is a not-for-profit economic development organization serving Riverside and San Bernardino Counties. Its mission is to provide a strong and unified regional voice for the development of human, political and financial capital, which support and enhance the economic vitality and quality of life in the Inland Empire.*
